TRACKS

TRACKS

Our R-series of tracks are a simple yet powerful addition to your vehicle. These aluminum tracks allow your vehicle to become a hub for roof mounted accessories - namely Vantech USA racks! These tracks may or may not require drilling depending on vehicle. Stainless steel hardware and gaskets are included. Vehicles with no access to the interior can use our Plus-Nut kit (D197, D198).

PART #	Color	Material	Description	Fitment	Dim1	Figure	Install
